

Dams of Distinction for 2018

PURPOSE:

The Dam of Distinction/Great Distinction list shall honour cows in the Canadian Hereford performance herds that meet the highest standards within herd for maternal ability, and recognize the cattlemen who produce them.

CRITERIA:

Based on cows enrolled in our T.H.E. performance program that meet specific criteria, a Dams of Distinction list will be produced and published on the web annually.

In order to be honoured as a **Dam of Distinction**, a cow must have:

1. Produced at least three calves.
2. Weaned a calf born since January 1st of the previous year (2017).
3. Initially calved at 790 days (26 months) of age or younger.
4. Had a calving interval between her first and second calf of no greater than 450 days (this is to allow breeders to calve two-year old heifers prior to the mature cow herd). In addition, an average 370-day calving interval must have been maintained thereafter.
5. Every calf produced must have had weaning records submitted on the Total Herd Evaluation (T.H.E.) performance program.
6. An average weaning index of all natural progeny of at least 105.
