For more information on the Mark of Excellence (MOE) show program, please read further, or visit www.hereford.ca

The Mark of Excellence (MOE) Program encourages and promotes the development of purebred Herefords through the show ring by:

- maintaining high standards of competition in Canadian Hereford Shows;
- assisting Fair Boards and Hereford Show Committees with organization and promotion of MOE Shows and;
- recognizing outstanding animals

Gold Sires require a minimum of 50 show points, with individual progeny contributing a maximum of 20 points.

Gold Dams require a minimum of 35 show points, with individual progeny contributing a maximum of 20 points.

Silver Animals require a minimum of 30 show points.

The nomination fee for each of the above iceberg awards is \$60.00. However, a certificate may be obtained from the CHA office at no charge.

****Please note that while a record of accumulated show points is kept at the CHA office, it is the member's responsibility to contact the CHA office regarding MOE Awards & verification of show points. It is extremely difficult to award Gold Dam and Gold Sire awards without member/owner/breeder/exhibitor input as to the identity of the progeny.**
