MANUFACTURING INC.

December 17, 2013

Dear Hereford Association Member,

Ketchum Manufacturing Inc. is proud to announce a partnership with the Canadian Hereford Association that will allow the association to sell Ketchum products. We at Ketchum believe that this will be very beneficial for the Canadian Hereford Association to raise money. This offer also allows members to have more access to the Ketchum products by purchasing through the association.

Ketchum has created an order form for the products being sold that the association will in turn place on their website. The association members will be able to print the form and fill it out. The members will be able to send the completed form to Ketchum via fax or email. The product will be shipped directly to the association members. Ketchum will keep track of all the sales generated through the Canadian Hereford Association. Ketchum will give the Hereford Association a percentage of all the sales generated through the partnership on a monthly basis.

The items that we at Ketchum have put on the order form for the association includes:

1. 201B, 201A and 201R tattoo pliers
2. Tattoo characters
3. Tattoo inks and pastes and black, green and white
4. RFID readers
5. Kurl Lock ear tags
6. Gestation calendars
7. Pedigree signs
8. Grooming supplies
9. Various veterinary supplies

This partnership will be beneficial to both the Canadian Hereford Association and Ketchum as this will help to raise money for your association and will help to raise interest in Ketchum products. Ketchum looks forward to a successful business partnership together now and in the future.

Sincerely

Kevin Dalrymple
Director of Ag. Sales

Sincerely

Gordon Stephenson
Hereford Association General Manager

LIVESTOCK PRODUCTS

Metal Ear Tags

(See order form for pricing)

Ketchum Kurl-Lock and Tamperproof tags are the most dependable and economical tags available. Stamping of initial or name and address is done on the back (side with holes). Consecutive numbers are stamped on the front (side with point). Note carefully the number of characters that can be stamped on these metal tags.

Kurl-Lock #2 and Tamperproof tags are suitable for cattle. They are 35mm x 8mm (1-3/8" x 5/16"). Available in plain coated steel and coloured steel (yellow, orange). Kurl-Lock #2 tags can be consecutively numbered with up to 6 numbers and be stamped with up to 10 letters in one or up to 8 letters in each of two lines.
